Why Fiberglass?

Durable

- Fiberglass doors won't dent, rot or rust.
- Withstands wide temperature ranges.

Beautiful

- Our doors are made to look and feel like real wood.
- Beautiful decorative glass patterns to accent your home and personal style.

Low Maintenance

- Durable fiberglass construction requires
- Less maintenance than wood or steel doors.

Energy Efficient

- Solid foam core offers 5 times the insulation value of wood.
- Double pane insulated tempered safety glass.

Classic-Craft® Decorative Glass

Glass Privacy Rating

Clear

Opaque

Adding glass to your door will maximize the beauty and curb appeal of your entryway. Choose from a variety of decorative glass options or opt for grilles, blinds, clear or energy-efficient Low-E glass. Our glass collections offer a variety of privacy levels and coming options to fit your personal style.

Augustine

An enchanting collection that embodies nature with its organic flowing lines and leaves. Insulated glass seals an authentic, abstract Rustic wrought iron design between clear and granite glass.

Glass Privacy Rating: 10

Arborwatch

An eclectic interpretation of the Arts and Crafts movement, Arborwatch combines narrow reed glass, seedy glass, waterglass and coming in a symmetrical arrangement accented by pale amber glass, amber antique glass and clear bevels.

Glass Privacy Rating: 6

Homeward

Linear shapes exemplify this Prairie-style look. It combines clear bevels, seeded glass and gray antique glass. Available in Brushed Nickel (1C) or Black Nickel (1D) coming.

Glass Privacy Rating: 4

Classic-Craft® Privacy & Textured Glass

Glass Privacy Rating

Clear

Opaque

Clear/Low-E

Our insulated clear glass door lites are tempered with a Low-E coating and double-paned.

Glass Privacy Rating: 0

Granite (XN)

Maintain maximum privacy while letting natural light into the home with this simply elegant design.

Glass Privacy Rating: 10

Reeded (XK)

A vertical, linear textured glass that provides modest privacy and an on-trend aesthetic.

Glass Privacy rating: 7

Rainglass (XR)

Maintain maximum privacy while letting natural light into the home with this simply elegant design.

Glass Privacy Rating: 8

Satin Etch (XE)

A pearlescent glass that delivers a pure, simple design aesthetic.

Glass Privacy Rating: 10

Fiber-Classic® & Smooth-Star® Decorative Glass

Glass Privacy Rating

Clear

Opaque

Axis

Simple and smart, Axis combines narrow reed glass in horizontal and vertical arrangements to create contrast and modest privacy. A vertical band of clear glass bevels completes this linear design, ideal for Modern home styles. Available in Black Nickel (1D) coming.

Glass Privacy Rating:

Calix

A clean and delicate classic. Calix includes an on-trend “x” design and a delicate diamond pattern with clear glass, providing fine-lined geometric appeal. Available in Black Nickel (1D) coming.

Glass Privacy Rating:

Concorde

Reflected light is captured and made to dance through gracefully curved bevels—meticulously crafted in old-world coming. Available in Black Nickel (1D) or Brushed Nickel (1C) coming.

Glass Privacy Rating:

Crystalline

Crystalline Glass sparkles with beveled, clear and crystalline glue chip glass that’s combined to create this diamond design. Available in Black Nickel (1D) coming.

Glass Privacy Rating:

Echelon

At the edge of boldness. Echelon provides clear glass accented with eased angles and clean edges infused with element of diamonds and triangles. Available in Black Nickel (1D) coming.

Glass Privacy Rating:

Latitude

Bending tradition. Latitude showcases seedy glass and simple curved details in a half-moon geometric design. Available in Black Nickel (1D) coming.

Glass Privacy Rating:

Fiber-Classic® & Smooth-Star® Decorative Glass

Glass Privacy Rating

Clear

Opaque

Maple Park

This peaceful and comforting design features water and granite glass along with clear bevels and a soft arc that create a craftsman-inspired look, well suited for all types of homes. Available in Brushed Nickel (1C) or Black Nickel (1D) coming.

Glass Privacy Rating:

Pembridge

Simplistic in its design, Pembridge features a field of hammered glass framed by gray baroque glass and multifaceted bevels. A central diamond shape adds a decorative touch. Available in Black Nickel (1D) coming.

Glass Privacy Rating:

Salinas

Insulated Oceana glass provides maximum privacy, and seals in a narrow Black wrought iron grille protecting it from the elements.

Glass Privacy Rating:

Saratoga

Saratoga's design blends diamond, clear bevel and reed glass in a distinctly original pattern. Detailed in Brushed Nickel (1C) or Black Nickel (1D) coming.

Glass Privacy Rating:

Sedona

Sedona glass reflects a classic mission style that uses distinctive beveled glass lines with unique bubble patterned glass. This style can be accented with either our Brushed Nickel (1C) or Black Nickel (1D) coming.

Glass Privacy Rating:

Wellesley

Wellesley glass design combines clear bevels, clear baroque, granite and water glass with a graceful center star. Available with Brushed Nickel (1C) or Black Nickel (1D) coming.

Glass Privacy Rating:

Glass Privacy Rating:

Internal Blinds

Internal blinds offer light control and privacy. Our Internal blinds also come with a built-in tilt feature. Comes with insulated clear glass, which is tempered and double-paned.

Screen Vented

Screen vented lights offer a built-in screen for ventilation featuring a gliding operation and sash locking system

Introducing Advanta® Lite Frame

Advanta Plugless Scrolled Lite Frame

Standard Lite Frame with Screw Plugs

A NEW FRAME OF MIND

Achieve a seamless look with the Advanta® lite frame, an innovative, patented solution from Therma-Tru. Avoid the unsightly look of missing screw plugs and enhance the beauty of your home's entryway.

The next generation of lite frames.

Patented four-piece design includes two interchangeable frame covers and a two-piece base frame.

- A** Frame Covers (Interior / Exterior) Removable, interchangeable aesthetic frame that clips into place.
- B** Base Frame Structural frame component that secures the frame to the glass in the door cutout.
- C** Insulated Glass Unit (IG) Available in various decorative, privacy and clear glass options.
- D** Frame Clips Zinc-plated steel clips that secure the frame cover to the base frame.

TRU-ADVANTAGES

Aesthetic Benefits

- The Advanta® lite frame can be stained or painted any color to complement the door, for enhanced curb appeal.
- The white Advanta® lite frame is color-matched to PrismaGuard® Alpine and does not require finishing if white look is desired.
- Frame cover can be finished separately to eliminate both unsightly behind-frame paint or stain weep, and the need to mask the glass

Pre-Finishing Benefits

- The frame cover can be finished separately, eliminating the need to mask the glass when finishing the lite frame.
- The elimination of screw plugs makes the pre-finishing process even faster.
- Frame does not need to be deglazed or reglazed during pre-finishing, reducing the amount of time the glass is handled, lowering the chance of damage.
- Allows the door to be completely finished before installing the glass, eliminating unfinished areas that may become exposed over time.

AVAILABLE GLASS OPTIONS

Glass options vary by size.

New Smooth-Star 8'0" Doors with Elevated Bottom Rail

2 Panel
Square Top

8'0" SS
Flush-Glazed

Doors with an elevated bottom rail feature a minimum 10" net smooth surface as measured from the bottom of the slab to the beginning of the panel detail.

ADA Compliant Doors

Ideal for both single- and multi-family new construction and remodeling, the 8'0" Smooth-Star 2-panel square top door has been redesigned with an elevated bottom rail to meet ADA requirements. The redesign also accommodates the 8'0" flush-glazed full-lite door.

3/6 Entry Door Solutions

3/6 ENTRY DOOR SOLUTIONS

EXPERIENCE A *WIDER* WELCOME!

A grand entrance should do more than enhance curb appeal-it should redefine how you experience your home. While standard doors can appear undersized against modern architectural scales, our 3/6 (42" wide) Therma-Tru® fiberglass doors provide the commanding proportions necessary to maintain a high-end focal point.

Beyond the aesthetic balance, these wider solutions offer enhanced accessibility, creating wide-open possibilities for navigating the daily flow of a busy household with ease.

Whether you are looking for the sophisticated, authentic woodgrain Look of the Classic Craft® Collection (available in Walnut, Fir and Mahogany); the sleek, contemporary finish of the Smooth-Star® Collection; or the clean lines, crisp angles and modern designs of the Pulse® Collection, these doors offer the perfect blend of expansive style and everyday convenience.

FEATURES & SPECIFICATIONS

Max. Size: Up to 3/6 x 8/0

Collections: Classic Craft® (in Walnut, Mahogany, & Fir options), Smooth-Star® and Pulse®

Material: Fiberglass

Core: Polyurethane Foam Core offers 4x insulating value (R-value)

Finishing: Factory-applied PrismaGuard Paint and Stain options available

Hardware: Clavos & Strap Hinges available
Multi-Point Locking System available with 5 Handle Styles

Glass: Privacy and Textured glass options

Durability: Low maintenance, will not rot, warp, dent or rust.

Weather Resistance: Composite rails protect door at top and bottom edges to help block moisture

Warranty: Limited Lifetime Warranty (transferrable for Classic Craft doors)

Classic Craft Grain and Styles

Fir Grain

Formerly Classic-Craft American Style

Designed to echo the grain of the largest species of American Hemlocks - the Western Hemlock tree - found in lush coastal rainforests of the Pacific Northwest.

Walnut Grain

Crafted to reflect the prized hardwood of the mighty Black Walnut trees, these doors feature a horizontal grain with natural movement accented by delicate arches and cathedrals.

Mahogany Grain

Formerly Classic-Craft Mahogany & Rustic

Derived from the finest African and Honduran Mahogany, blending rustic influences with exotic roots to build upon the rich history of one of the most renowned woods in the world.

Canvas

Inspired by the world's most exquisite masterpieces and designed with the architectural character of finely sanded wood.

Fiber-Classic and Smooth-Star Grains and Styles

Fiber-Classic Mahogany

- Designed to capitalize on consumer preferences for darker woods in home interiors, Fiber-Classic Mahogany extends this look to the outside of the home with entryways that deliver timeless styles and beautiful finishes.

Fiber-Classic Oak

- With high-definition panel embossments, Fiber-Classic Oak continues to pair the durability and strength of fiberglass with the traditional styling of Oak, making it a perfect fit in a variety of home styles.

Smooth-Star

- Get the look of fine painted wood and the strength of steel with the Smooth-Star Collection. It's an excellent value in a fiberglass entry door, made of rugged compression-molded fiberglass with deep detailed panels. This design creates beautiful shadow and contours on your door's surface.

Accugrain is a door casing process that uses multiple dies to product different graining types to cast the appearance of real wood into our fiberglass doors. At a high-level, the process starts with building a wood door using select pieces of wood that have the graining and wood characteristics we want to reproduce.

They then enhance the wood door using proprietary technology to enhance the natural graining depth on the wood before casing. Then, with the graining technology, the final

product undergoes multiple casting. This process, called random depth graining, combined with the multiple dies to product different graining types, makes our fiberglass doors virtually indistinguishable from real wood doors.

Traditions Steel

- These sturdy steel doors are specially designed to bring you the strength you need at an excellent value. The collection features doors that are primed white and ready-to-paint.

20-Minute Rated Fiberglass

- All of our opaque Classic-Craft, Fiber-Classic and Smooth-Star doors can be ordered as a 20-minute fire-rated product that features a proprietary cement core, the doors deliver increased protection over polyurethane foam.
- From smooth to grained, we've got the products needed to meet national and local code requirements for garage-to-house entry, Multi-family residential properties and Hotel/Motel unit entries.

**Meets California WUI Fire Code.*

Multi-Point Locking System

Multi-Point Locking Systems (MPLS) (Recommended)

Engages the door frame at the top, middle and bottom, providing continuous protection along the door edge for enhanced security vs. a traditional deadbolt.

GRIP-STYLE MPLS

Grip-style handlesets offer an intuitive approach to the multi-point locking system with on-trend aesthetics. A simple 90-degree twist of the thumbturn (interior) or a key (exterior) is all it takes to engage the door frame at three points with no need to lift the handleset lever. An integrated mishandling device protects the door and frame from accidental damage. Features deadbolt located above handleset.

(Highly recommended for 8'0" fiberglass doors. Active option only. Not available for door systems with an astragal. Not recommended for steel doors or Impressions integrated storm and entry door systems. Strike plate package available.)

Tongue

Heights:
6'8"
7'0"
8'0"

Configurations:
Inswing
Outswing

- 1 Self-lubricating locks.
- 2 1" premium stainless steel deadbolt.
- 3 Integrated mishandling device.

view
of door.

Exterior view of door.

Multi-Point Locking System

Side view of door.

Engages at three critical points.

Exterior view of door.

LEVER-STYLE MPLS

Lever-style handlesets bring form and function together with decorative styles. A convenient upward turn of the handle is required before all three points will engage. An integrated mishandling device helps protect the door and frame from accidental damage. Features deadbolt below the handleset.

(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors. Strike plate packages available to meet the installation needs of various MPLS applications.)

3/4-Lite Flush-Glazed Shaker-Style Doors

Smooth-Star[®] doors set the standard for beauty, quality and performance.

AVAILABLE DOORS

TRU-ADVANTAGES

- 1. On-Trend Styles:** These doors are thoughtfully designed to coordinate with a variety of architectural and decorative elements, including Craftsman, Coastal and other popular design influences.
- 2. Advanced Protection:** Composite edge stiles with Tru-Guard_{tm} composite technology work together with composite top and bottom rails and durable fiberglass door skins for extra protection from water absorption, rot, mold and wood-ingesting insects on all six sides of the door.
- 3. Low Maintenance:** Durable, long-lasting fiberglass skins won't warp, rot, dent or rust, and require very little maintenance.

3/4-Lite Flush-Glazed Shaker-Style Doors

FCM7540
Onyx

Smooth-Star Collection - Pulse Design

- Features smooth, ready-to-paint surface with high-definition panel embossments.
- Includes 1-1/4" lock and hinge stile, as well as 12-1/2" lock block for increased rigidity, stability and security.
- Engineered with composite top and bottom rails for increased moisture prevention.
- Multiple sidelite configurations offered to complement any entryway opening. 10", 12" and 14" options offered in select styles.
- Limited lifetime warranty.

Craftsman-Lite 2-Panel
Shaker Flush-Glazed

2-Panel
Craftsman Shaker

A transitional update to the historic Shaker style, new Smooth-Star Shaker-style doors and sidelites feature flush-glazed glass and recessed panels delivering a simple design with broad appeal. Ideal for homes that take design cues from Farmhouse, Prairie and Modern architectural elements, Shaker-style doors and sidelites bridge the gap between yesterday's styles and today's trends.

Available in Smooth-Star, starting on page 165.

Flush-Glazed Fiberglass Door Replacement Rider

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door and sidelite.

Clearview RS Series

In a few short days, Clearview RS (Retro Sized) units are assembled and ready to replace that old aluminum sliding glass door. See dimensional data page at the end of this section for sizing information.

Every unit comes with a preprimed fully weatherstripped frame. The adjustable High Dam Sill is complete with protective cover to keep out the elements for life. Corner Pads provide a superior seal where other units fail. Operating sidelites are available with stainless steel multi-point hardware and your choice of handle. Sized for replacement of your existing patio door.

Clearview RS Series

In a few short days, Clearview RS (Retro Sized) units are assembled and ready to replace that old aluminum sliding glass door. See dimensional data page at the end of this section for sizing information.

Made to Fit

Now available - retro sized patio units with sidelites in all configurations.

Performance you can count on all in a high performance system with high performance low-E glass.

Georgian

Thumbturn

Born and raised in Oklahoma, Troy “Ty” Cobb brought his Mid-American values and Midwestern work ethic with him when he moved to California at the age of 22. After working for a time at the tire factory, Cobb joined Mox Lumber Company and quickly became the head of

the Sash and Door Department. From there, he moved on to the Red River Lumber Company’s Sash and Door Department. Piloting his Model A Ford, Ty served dealers from Los Angeles through San Diego and into Arizona.

In 1935, Ty took his hard earned life savings of \$5,000 and started his own business, T.M. Cobb, at 5800 S. Central Avenue in Los Angeles. The company was founded on the same principle upon which Ty had based his entire career, a dedication to quality, service and personal integrity.

A hard working and frugal man, Ty earned the respect

of both his customers and employees. He spent his entire adult life building T.M. Cobb from the ground up, overseeing the company’s incredible growth and expansion over the next three decades.

Ty passed away in 1970, but the company continues to build upon the foundation he established. Since 1970, T.M. Cobb has expanded its facilities to allow for total coverage throughout California and neighboring states. Owned and operated by second, third, and fourth generation Cobb family members, T.M. Cobb operates six manufacturing plants, four distribution warehouses and six offices. But despite the many changes in T.M. Cobb over the years, the one constant has been the persistence of Ty’s original vision: To supply lumber and building material dealers with a wide selection of quality products and knowledgeable, responsive service at fair prices.

Today, T.M. Cobb and Therma-Tru Doors bring the widest selection of fiberglass and steel doors, all in-stock for fast delivery. T.M. Cobb’s relationship with Therma-Tru spans decades. This close relationship assures you of quality products along with high service levels.
